2. Evaluation of the team leader

The team leader has made an amazing job with this project. He was very devoted and willing to solve every issue that would come up during the group project. A very well deserved maximum grade of 10 is my evaluation for the leader.

3. Work done by me

I have worked with every field of the project. I was part of the coding regarding mostly back-end development in Laravel and some front-end also. I designed several diagrams such as Activity Diagrams , a part of State Diagrams , ERD , Class Diagram , Collaboration Diagram and Data Flow Diagram Level 2. I also helped with the making of the documentation where I updated the document with my work.
